

iUniverse

Book Format Information

Format

iUniverse books are all perfect bound:

This binding consists of a book block with a cover made from heavier paper, which is glued together at the spine with a strong, flexible glue.

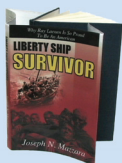

iUniverse offers trade paperbacks:

Trade Paperbacks

Include the same paper that is used in hardcover books. They are intended for sale in bookstores.

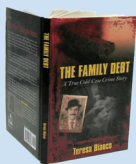

iUniverse does not offer mass market paperbacks, which are smaller and cheaply made with pulp paper. These books are intended for sale on racks in supermarkets and drug stores and are likely to fall apart after several years or excessive handling.

iUniverse offers two options of hardcover formats:

Dust Jacket

Features a durable cloth binding with a stamped spine and a full-color dust jacket and flaps.

Glossy Casebound

Features a full-color glossy cover image adhered directly onto the cover, similar to a textbook.

iUniverse offers the following page count ranges:

	Softcover	Hardcover
5 x 8	48-740	
5.5 x 8.5	48-740	108-740
6 x 9	48-740	108-740
7.5 x 9.25	48-740	
8.25 x 11	48-828	

In order for text to appear on the spine, books need to have a minimum of 80 pages.

Trim Size

	Softcover	Hardcover
5 x 8	X	
5.5 x 8.5	X	X
6 x 9	X	X
7.5 x 9.25	X	
8.25 x 11	X	

When publishing a hardcover book, the softcover trim size must match that of the hardcover.
